## BROKEN PAIRS @ CRUFTS

1. **If your pair becomes broken** (either no replacement dog or one of the handlers no longer wishes to compete) immediately inform the YKC office.
  - i. The member and dog who still wish to compete will go onto a waiting list to be joined with other members in a similar situation.
  - ii. The YKC will merge any members who have been split up from their original pairing. This merge will be done in a first come first served basis, the earlier you let the YKC know, the more likely you will get another partner.
    - a. The YKC will merge members based on dog height only, i.e., a 20-year-old could get merged with an 8-year-old if their dogs compete at the same height.
      - (1) this is non-negotiable. If you are unhappy with your pairing you may withdraw from the Crufts final (you will not be merged a second time - the person you left will be merged though)
  - iii. You do not have to be merged; you may instead withdraw from the Crufts final. You may still not re-qualify with another pairing in that dog height.
  - iv. The member whose dog has been injured may switch to a new pair and attempt to requalify only if they have contacted the YKC with written proof from their vet that this is the case AND the YKC have written back and agreed. (Email is fine)
  - v. A member that did not want to be part of that pairing anymore will not be allowed to requalify (unless it falls under extenuating circumstances, in which case, you must contact the YKC for written permission)
